

WIKISTIM.ORG

May 2017 News

PLEASE FORWARD TO YOUR COLLEAGUES

www.wikistim.org

If you are reading this newsletter for the first time, please visit the [ABOUT](#) section on the WIKISTIM home page. This section describes WIKISTIM's unique resources and is accessible without registration.

GRANT FROM BOSTON SCIENTIFIC

We are delighted to announce that Boston Scientific has awarded The Neuromodulation Foundation, Inc., a grant to support our work updating and maintaining our two websites: WIKISTIM.org and neurmodfound.org, which presents *The Practice Parameters for the Use of Spinal Cord Stimulation in the Treatment of Chronic Neuropathic Pain*. We appreciate the continued support of the neuromodulation community as we develop these educational/research resources with the ultimate goal of improving patient care.

RECORD GROWTH IN MEMEBERSHIP SINCE THE APRIL NEWSLETTER

In the past month, we have had the largest one-month bump in WIKISTIM registration since we created the site. We are grateful to everyone who is helping us spread the word about WIKISTIM!

13th WORLD CONGRESS OF THE INTERNATIONAL NEUROMODULATION SOCIETY

Please join us on May 30th at INS in Edinburgh as we present our paper poster describing WIKISTIM's current status and upcoming features four times (7:30 to 8:00, 10:00 to 10:25, 13:30 to 14:30, and 16:00 to 16:30 and make an oral presentation in the Sidlaw Auditorium from 17:30 to 17:40.

The INS has also given us space for a tabletop exhibit in the Exhibition Hall. We are grateful for this support and encouragement as we all work to improve communication of study results, design of neurostimulation studies, and patient outcomes.

NEW ENTRIES

Even as we keep the WIKISTIM database up-to-date, we continue to expand our listing of DBS citations that report primary data in indications beyond Parkinson's Disease, depression, epilepsy, and OCT. We have identified hundreds of possibilities for dystonia and tremor and will be adding these as soon as we format them and check for duplicates. Next up will be Tourette's syndrome, anorexia, Alzheimer's disease, and addiction. The peripheral nerve stimulation section is also awaiting our focused attention. We continue to maintain our comprehensive citation listings for SCS, GES, SNS, and DRG.

DONATIONS

Please visit the [DONATE](#) link on the WIKISTIM homepage for information on tax-deductible donations! Our goal is to keep WIKISTIM available free of charge. And please consider including The

Neuromodulation Foundation, Inc. in your estate planning, as Dr. Richard North did this month!

MAY 2017 STATUS

- 473 subscribers
- DBS citations 3135
- DRG citations 49
- GES citations 476
- PNS citations 48
- SCS citations 2034
- SNS citations 829

CITATIONS OF NEW PAPERS THAT REPORT PRIMARY DATA ADDED MAY 2017

DBS (the WIKISTIM database is as comprehensive as possible for depression, epilepsy, OCD, and Parkinson's—we are in the process of adding other indications)

1. Amami P, Mascia MM, Franzini A, Saba F, Albanese A. Shifting from constant-voltage to constant-current in Parkinson's disease patients with chronic stimulation. *Neurol Sci* 2017 epub <https://www.ncbi.nlm.nih.gov/pubmed/28478496>
2. Blomstedt P, Naesström M, Bodlund O. Deep brain stimulation in the bed nucleus of the stria terminalis and medial forebrain bundle in a patient with major depressive disorder and anorexia nervosa. *Clin Case Rep* 2017 5(5):679-684 <https://www.ncbi.nlm.nih.gov/pubmed/28469875>

FINANCIAL SUPPORT TO DATE FOR 2016/17

- Boston Scientific
- B. Todd Sitzman, MD, MPH
- NEVRO
- Richard B. North, MD
- The NANS Foundation, now the Institute of Neuromodulation
- Thomas Abell, MD

Ongoing in-kind support:

- The International Neuromodulation Society (publicity and conference registration)
- The Neuromodulation Foundation (parent non-profit, overhead and development)
- The North American Neuromodulation Society (publicity and conference registration)

EDITORIAL BOARD

Editor-in-chief

Richard B. North, MD

Section editors

Thomas Abell, MD, Gastric Electrical Stimulation
