

January 2016 News

PLEASE FORWARD TO YOUR COLLEAGUES

[www.wikistim.org](http://www.wikistim.org)

*If you are reading this newsletter for the first time, please visit the [ABOUT](#) section on the [WIKISTIM home page](#). This section describes WIKISTIM's unique resources and is accessible without registration.*

### **CURRENT STATUS**

Our 18 new subscribers in December increased our total to 303, which means registration more than doubled in the past year. Please continue to encourage your colleagues to register for access to our free resource.

In December, we attended the Annual Meeting of the North American Neuromodulation Society. We also made a lot of functional improvements to WIKISTIM. (Suffice it to say users would not notice unless we hadn't made them!)

We are pleased to report that the important federal agency that we visited in December has invited us back to make an hour-long presentation about WIKISTIM this week!

**January 1st numbers (These numbers might not add up from month to month as we delete duplicates. See appendix below for list of new citations.)**

- 303 subscribers (18 new)
- SCS citations 1848 (5 new)
- DBS citations 1645 (52 new)
- SNS citations 745 (4 new)
- PNS citations 26 (list remains preliminary)
- DRG citations 31 (0 new)
- GES citations 469 (0 new)

### **CONTINUING PLANS FOR THE FUTURE**

- Encourage people to earn CME credits by filling in datasheets
- Transform our datasheets into forms that can be completed online easily
- Include additional sections, with VNS next in line
- Optimize performance on various platforms (screen sizes, browser types, etc.)
- Create forms for online data submission, with easy checkboxes when applicable
- Link data fields to additional information (e.g., descriptions and preferred uses of study designs and outcome criteria, authors' CVs, etc.)
- Incorporate cutting edge data visualization graphics that will update immediately as data are extrapolated from papers and uploaded

- Offer a dynamic user experience, including the ability to save searches and customize the way the site behaves
- Secure continued funding
- Continue to make quality improvements

#### **HOW THE NEUROSTIMULATION COMMUNITY CAN HELP**

- Submit extracted data from published reports of your choice, or use our datasheets as a guide when you plan your study and write your paper, and then submit the datasheet to us upon journal acceptance.
- Notify us about any reports we might have missed that contain primary data on SCS, SNS, DRG, PNS, GES, DBS/OCD, DBS/Epilepsy, or reports you would like to see added for DBS/PD.
- Suggest website improvements (and thanks to those who have done this—we have incorporated your suggestions to the best of our ability).

#### **FINANCIAL SUPPORT FOR 2015 to 2016**

**(Listed alphabetically by first name):**

- B. Todd Sitzman, MD, MPH
- Greatbatch
- Medtronic
- The NANS Foundation (3-year grant commitment started 2014)
- NEVRO
- Richard B. North, MD
- Thomas Abell, MD

#### **Ongoing in-kind support:**

- The International Neuromodulation Society (publicity and conference registration)
- The Neuromodulation Foundation (parent non-profit, overhead and development)
- The North American Neuromodulation Society (publicity and conference registration)

#### **EDITORIAL BOARD**

##### **Editor-in-chief**

Richard B. North, MD

##### **Section editors**

Thomas Abell, MD, Gastric Electrical Stimulation  
 Tracy Cameron, PhD, Peripheral Nerve Stimulation  
 Roger Dmochowski, MD, Sacral Nerve Stimulation  
 Robert Foreman, MD, PhD, Co-editor Experimental Studies  
 Elliot Krames, MD, Dorsal Root Ganglion Stimulation  
 Bengt Linderöth, MD, PhD, Co-editor Experimental Studies  
 Richard B. North, MD, Spinal Cord Stimulation  
 B. Todd Sitzman, MD, MPH, At Large  
 Konstantin Slavin, MD, Deep Brain Stimulation  
 Kristl Vonck, MD, PhD, Section on DBS for Epilepsy  
 To be determined, Vagus Nerve Stimulation

##### **Managing editor**

Jane Shipley

## Disclosure

WIKISTIM includes citations for indications that are or might be considered off-label in the United States.

## Appendix: Citations added January 1, 2016

### DBS (we have started filling in the older DBS citations that we passed over in our initial list)

1. Alegret M, Junqué C, Valldeoriola F, Vendrell P, Pilleri M, Rumià J, Tolosa E. Effects of bilateral subthalamic stimulation on cognitive function in Parkinson disease. *Arch Neurol* 2001 58(8):1223-1227 <http://www.ncbi.nlm.nih.gov/pubmed/11493162>
2. Alterman RL, Reiter GT, Shils J, Skolnick B, Arle JE, Lesutis M, Simuni T, Colcher A, Stern M, Hurtig H. Targeting for thalamic deep brain stimulator implantation without computer guidance: assessment of targeting accuracy. *Stereotact Funct Neurosurg* 1999 72(2-4):150-153 <http://www.ncbi.nlm.nih.gov/pubmed/10853070>
3. Benabid AL, Pollak P, Gross C, Hoffmann D, Benazzouz A, Gao DM, Laurent A, Gentil M, Perret J. Acute and long-term effects of subthalamic nucleus stimulation in Parkinson's disease. *Stereotact Funct Neurosurg* 1994 62(1-4):76-84 <http://www.ncbi.nlm.nih.gov/pubmed/7631092>
4. Boel JA, Odekerken VJ, Geurtsen GJ, Schmand BA, Cath DC, Figee M, van den Munckhof P, de Haan RJ, Schuurman PR, de Bie RM; NSTAPS study group. Psychiatric and social outcome after deep brain stimulation for advanced Parkinson's disease. *Mov Disord* 2015 epub <http://www.ncbi.nlm.nih.gov/pubmed/26660279>
5. Brown RG, Dowsey PL, Brown P, Jahanshahi M, Pollak P, Benabid AL, Rodriguez-Oroz MC, Obeso J, Rothwell JC. Impact of deep brain stimulation on upper limb akinesia in Parkinson's disease. *Ann Neurol* 1999 45(4):473-488 <http://www.ncbi.nlm.nih.gov/pubmed/10211472>
6. Caparros-Lefebvre D, Blond S, Feltin MP, Pollak P, Benabid AL. Improvement of levodopa induced dyskinesias by thalamic deep brain stimulation is related to slight variation in electrode placement: possible involvement of the centre median and parafascicularis complex. *J Neurol Neurosurg Psychiatry* 1999 67(3):308-314 <http://www.ncbi.nlm.nih.gov/pubmed/10449551>
7. Diederich NJ, Alesch F, Goetz CG. Visual hallucinations induced by deep brain stimulation in Parkinson's disease. *Clin Neuropharmacol* 2000 23(5):287-289 <http://www.ncbi.nlm.nih.gov/pubmed/11154099>
8. Dostrovsky JO, Levy R, Wu JP, Hutchison WD, Tasker RR, Lozano AM. Microstimulation-induced inhibition of neuronal firing in human globus pallidus. *J Neurophysiol* 2000 84(1):570-574 <http://www.ncbi.nlm.nih.gov/pubmed/10899228>
9. Fernández-González F, Seijo F, Menéndez-Guisasola L, Salvador C, Roger RL, González-García FJ, Fernández-Martínez JM, Bulla B, Fernández-García C, González-González S, Galindo A. Stereotactic target identification for neurosurgery of Parkinson disease. Spanish. *Rev Neurol* 1999 28(6):600-608 <http://www.ncbi.nlm.nih.gov/pubmed/10714346>
10. Fonoff ET, Azevedo A, Angelos JS, Martinez RC, Navarro J, Reis PR, Sepulveda ME, Cury RG, Ghilardi MG, Teixeira MJ, Lopez WO. Simultaneous bilateral stereotactic procedure for deep brain stimulation implants: a significant step for reducing operation time. *J Neurosurg* 2015 epub <http://www.ncbi.nlm.nih.gov/pubmed/26684776>

11. Ghika J, Villemure JG, Fankhauser H, Favre J, Assal G, Ghika-Schmid F. Efficiency and safety of bilateral contemporaneous pallidal stimulation (deep brain stimulation) in levodopa-responsive patients with Parkinson's disease with severe motor fluctuations: a 2-year follow-up review. *J Neurosurg* 1998 89(5):713-718 <http://www.ncbi.nlm.nih.gov/pubmed/9817406>
12. Haberler C, Alesch F, Mazal PR, Pilz P, Jellinger K, Pinter MM, Hainfellner JA, Budka H. No tissue damage by chronic deep brain stimulation in Parkinson's disease. *Ann Neurol* 2000 48(3):372-376 <http://www.ncbi.nlm.nih.gov/pubmed/10976644>
13. Hariz MI, Shamsgovara P, Johansson F, Hariz G, Fodstad H. Tolerance and tremor rebound following long-term chronic thalamic stimulation for Parkinsonian and essential tremor. *Stereotact Funct Neurosurg* 1999 72(2-4):208-218 <http://www.ncbi.nlm.nih.gov/pubmed/10853080>
14. Henderson JM, O'Sullivan DJ, Pell M, Fung VS, Hely MA, Morris JG, Halliday GM. Lesion of thalamic centromedian--parafascicular complex after chronic deep brain stimulation. *Neurology* 2001 56(11):1576-1579 <http://www.ncbi.nlm.nih.gov/pubmed/11402120>
15. Hristova A, Lyons K, Tröster AI, Pahwa R, Wilkinson SB, Koller WC. Effect and time course of deep brain stimulation of the globus pallidus and subthalamus on motor features of Parkinson's disease. *Clin Neuropharmacol* 2000 23(4):208-211 <http://www.ncbi.nlm.nih.gov/pubmed/11020125>
16. Jahanshahi M, Ardouin CM, Brown RG, Rothwell JC, Obeso J, Albanese A, Rodriguez-Oroz MC, Moro E, Benabid AL, Pollak P, Limousin-Dowsey P.
