

March 2018 News

PLEASE FORWARD TO YOUR COLLEAGUES

www.wikistim.org

If you are encountering this newsletter for the first time, please visit the [ABOUT](#) section on the WIKISTIM [home page](#), which describes WIKISTIM's unique resources and is accessible without registration.

MARCH 2018 STATISTICS

Membership

With more than twice as many new members this year as we had in the same period in 2017, membership has grown to 667. Thank you for continuing to spread the word about WIKISTIM!

Number of entries in each section

- DBS 4226
- DRG 67, with 8 completed WIKISTIM abstracts
- GES 465
- PNS 52
- SCS 2145, with 128 completed or partially completed WIKISTIM abstracts
- SNS 881

CONTINUING EFFORTS

We continue to pursue ways to improve WIKISTIM and to encourage contributions of completed data sheets. These efforts take time, and we continue to update the site and to pursue financial support so that we can realize our vision of WIKISTIM. Major goals as of this month are completing our new data entry scheme and improving our search capabilities to make WIKISTIM even more valuable.

We used WIKISTIM ourselves in the past month to generate a list of 68 reports of SCS RCTs (including study protocols, initial reports, and follow-up studies) for a forthcoming joint society effort. We also retrieved citations on the use of neurostimulation to treat bladder dysfunction from the SCS and the SNS sections.

SUPPORT FOR WIKISTIM

We continue to urge those of you who use the site and can envision its future to make a donation via PAYPAL using this [DONATE](#) link or by sending a check to The Neuromodulation Foundation, 117 East 25th Street, Baltimore, MD 21218. We'd love to add your name to the list of financial supporters below!

CURRENT

- Boston Scientific

- B. Todd Sitzman, MD, MPH
- James Brennan, MD
- NEVRO
- Richard B. North, MD
- The Donlin & Harriett Long Family Charitable Gift Fund
- The Neuromodulation Foundation, Inc. (WIKISTIM's parent organization)
- The North American Neuromodulation Society
- Thomas Abell, MD

IN-KIND

- The International Neuromodulation Society (publicity and conference registration)
- The North American Neuromodulation Society (publicity and conference registration)

PAST (that we hope will be renewed)

- Greatbatch, now Nuvectra
- Medtronic
- St. Jude, now Abbott
- The NANS Foundation, now the Institute of Neuromodulation

CITATIONS ADDED MARCH 2018

DBS
