FROM ONE YEAR TO THE NEXT

From One Year to the Next

A year into the pandemic caused by SARS-CoV-2, our inability to control spread of COVID-19 has changed our lives. This virus has exploited and, thus, exposed cracks in health care and health insurance systems as well the adverse impact of societal inequities on physical well-being. Even as the virus is reinventing itself through mutation, it is also driving changes in our daily life—dictating our behavior and creating a new-normal, some elements of which will likely persevere.

By this time, we can all name a friend or relative who has contracted COVID-19 and recovered or died. We are sad to add to this list by reporting that on February 21st, we lost a giant in neuromodulation research, Dr. Jan Holsheimer, to COVID-19. Dr. Holsheimer, who was born in October 1941, devoted his life to research meant to improve the lives of others. Lists of his [publications](#) and [patents](#) are readily available online and serve as witnesses to his success in meeting this goal. He leaves his wife, children, and grandchildren and all of us who had the great fortune of working with him or simply encountering him at a meeting and recognizing that his formidable intellect was matched by humility and kindness.

Other projects of The Neuromodulation Foundation

A collaboration we were happy to join with [IMMPACT](#), [ION](#), and the [INS](#) has culminated in publication of [a paper](#) presenting important considerations for the design of RCTs of SCS for pain. At this time, the paper is only available online in “accepted manuscript” format, but we expect to see the definitive version in the near future.

We are also working with ION to create a series of glossaries. We first published an [SCS glossary](#) in 2007, which remains online. Our working group plans to create and publish versions of the glossary that will be appropriate and helpful in various contexts.

Along those lines, as we reported several months ago, we continue to work on our update of the [SCS Practice Parameters](#), which will be transformed into a Practice Guide that will add peripheral nerve and dorsal root ganglion stimulation and will include different types of pain. (The previous edition was devoted to neuropathic pain.) This important effort that involves several co-authors and will require months of work.

MEMBERSHIP

In February, the number of our subscribers grew to 1432. Thank you for helping to spread the word!

CITATIONS ADDED FEBRUARY 25, 2021 (if necessary, please click "View Entire Message")

Deep Brain Stimulation (now 6070 citations, with 2 completed WIKISTIM abstracts)

If WIKISTIM SAVES YOU TIME. . . WIKISTIM SAVES YOU MONEY!

Contributions to The Neuromodulation Foundation are tax-deductible for United States tax-payers aged 70 1/2 who contribute directly from an Individual Retirement Account or for those who itemize deductions. A special provision of the 2020 CARES Act allows all United States tax-payers to deduct up to \$300 in charitable contributions whether or not they itemize deductions.

We welcome and acknowledge all donations. While we aren't operating at the level where we can afford to collect donations via credit cards, the PAYPAL option on the [DONATE](#) page is available for your convenience, or you may, of course, ask your bank to send a check to The Neuromodulation Foundation, Inc., 117 East 25th Street, Baltimore, MD 21218.

The Internal Revenue Service judges our suitability to continue as a 501(c)(3) non-profit charitable corporation based on the level of public support we receive. Please join the donors listed below and on our website with a contribution large or small. Please encourage institutional and corporate donors as well. We'd love to add your name and theirs to our list of financial supporters below!

Individual supporters 2019-21:

- Thomas Abell, MD
- Kenneth Chapman, MD
- Richard B. North, MD
- B. Todd Sitzman, MD, MPH
- Konstantin Slavin, MD, PhD

Industry support 2019-21:

- Medtronic
- Stimwave

Nonprofit support:

- The North American Neuromodulation Society (publicity, conference registration, grant)
- The International Neuromodulation Society (publicity and conference registration)
- The Neuromodulation Foundation, Inc. (WIKISTIM's parent organization)
