NEWSLETTER #108 OCTOBER 2022

WIKISTIM and COVID

COVID has caused such a disruption in our lives that we tend to refer to time as "before COVID." Before COVID, the North American Neuromodulation Society (NANS) held face-to-face educational conferences that grew larger each year. This filled the NANS coffers enough to support WIKISTIM to the extent that, in conjunction with grants from other sponsors and consulting income, we had sufficient funds in reserve to continue working uninterrupted. Now, however, we are feeling the downstream impact of the reduction in income that followed the loss of large conferences, and we are dangerously close to running out of funds. We have, of course, applied for grant renewals and have one more to submit. As we asked last month, if you are in a position to support our grant applications or to support us yourself, please do so. At this point, our goal is keeping WIKISTIM free and widely available, and we don't want to miss a single month's update.

Thank You to Nevro

We thank Nevro for the kind donation that helped keep the wolf from the door this month.

Increase Continues in the Number of Subscribers and Citations

WIKISTIM now has 1646 subscribers. Thank you for spreading the word!

We recently passed 7000 citations of papers that report primary data or a study protocol in our DBS section, and this month our SCS section has surpassed 3000. In 1991, just over 30 years ago, only a handful of papers had been written on DBS, and Dr. North was able to publish a table displaying important data from SCS studies on less than a single page (Neurosurgery 28(5):693). This month's newsletter lists our largest ever one-month collection of new SCS citations since we started WIKISTIM in November 2013 with 500 citations.

Citations Added From Search on October 10, 2022

Whenever possible, we provide free full-text links. For journals where a full-text PDF downloads immediately when a page is opened or has a “watermark,” we link to the link rather than to the PDF. (If necessary to see all of the lists, please click “View Entire Message.”)

THANK YOU TO OUR SUPPORTERS!

Individual supporters 2019-22:

Thomas Abell, MD
Kenneth Chapman, MD
The Donlin & Harriett Long Family Charitable Gift Fund
SuEarl McReynolds
Richard B. North, MD
Louis Raso MD, PA
B. Todd Sitzman, MD, MPH
Konstantin Slavin, MD, PhD

Industry support 2019-22:

Medtronic
Nevro
Stimwave

Nonprofit support:

The North American Neuromodulation Society (publicity, conference registration, grant)
The International Neuromodulation Society (publicity, conference registration, grant)
The Neuromodulation Foundation, Inc. (WIKISTIM's parent organization)
