

See **ABOUT WIKISTIM**

**NEWSLETTER #112 FEBRUARY 2023**

**COVID and WIKISTIM**

Please [donate](#) to WIKISTIM so that we can continue to provide this free service despite the fact that the pandemic has had a continued deleterious economic impact on some of our major sponsors. We don't want WIKISTIM to be a downstream victim of COVID.

We were recently asked whether a consulting payment could be diverted directly to The Neuromodulation Foundation to support WIKISTIM. In fact, Dr. North has been doing this since the inception of the Foundation in 2007, and he was joined in this recently by Dr. Slavin. All that is required is to ask that payment be made to The Neuromodulation Foundation instead of to the individual providing the service; this payment will then be reported as income to the Foundation rather than to the individual.

**Thank You**

We thank the North American Neuromodulation Society for its donation which made this newsletter possible.

**Discuss Freely**

Last month's newsletter article about the Dhruva paper in JAMA led to a detailed and thoughtful reply that is posted in the WIKISTIM [discussion section](#). Please consider adding your thoughts on this and other subjects. Unlike letters to the editor, our discussion section has no deadlines or limitations on number of authors, word count, or citations.

**Increase in the Number of Subscribers**

WIKISTIM now has 1701 subscribers. Thank you for spreading the word!

## Citations Added From Search on February 10, 2023

Whenever possible, we provide free full-text links. For journals where a full-text PDF downloads immediately when a page is opened or has a “watermark,” we link to the link rather than to the PDF. (If necessary to see all of the lists, please click “View Entire Message.”)

### Deep Brain Stimulation (now 7406 citations)
