NEWSLETTER #155 September 2026 See ABOUT WIKISTIM

EDITORIAL

WIKISTIM Newsletter Resumes

WIKISTIM is resuming its regular monthly publication schedule. No newsletter has been sent since issue #149 (March 8-9, 2026), during which time the database was frozen following the retirement of Jane Shipley (March 15, 2026), who oversaw WIKISTIM for many years.

We would like to take this opportunity, on behalf of the whole WIKISTIM community, to thank Jane warmly for her dedication and the remarkable work she accomplished over the years, carefully curating and growing this resource into what it is today. Her rigor and expertise will be greatly missed, and we wish her a wonderful and well-deserved retirement.

This edition closes out the transition period: between March 10 and August 31, 2026, 1,345 new citations were identified for the March-July period (numeric summary below, not individually detailed in this edition), plus the 278 citations from August 2026, presented in full detail below.

— Manuel Roulaud, WIKISTIM Managing Editor

Numeric summary, March-July 2026 (not individually detailed in this edition):

The individual monthly newsletters for April through August (each covering that month's slice of the March-July citations) will be published on the WIKISTIM News page, alongside past editions. Issues #150–154 are expected to be live on the WIKISTIM News page, and their citations incorporated into the searchable WIKISTIM database, during September/October 2026.

- Deep Brain Stimulation: 785 new citations
- Spinal Cord Stimulation: 257 new citations
- SCS Meta-Analyses: 33 new citations
- Dorsal Root Ganglion Stimulation: 25 new citations
- Peripheral Nerve Stimulation: 156 new citations
- Sacral Nerve Stimulation: 74 new citations
- Gastric Electrical Stimulation: 15 new citations

Total March-July 2026: 1,345 citations identified but not individually listed in this edition; a follow-up update may present them if needed.

With this catch-up, WIKISTIM now lists approximately 18,324 citations in total (16,701 as of March 9, 2026, plus 1,623 new citations identified between March 10 and August 31, 2026).

The full detail below covers the search from August 1 to August 31, 2026.

WIKISTIM Now Has ~1,556 Subscribers and Lists 18,324 Citations!

Thank you for telling your colleagues about our free resource.

Citations Added From Search on 2026-08-01 to 2026-08-31 (BE SURE TO CLICK "VIEW ENTIRE MESSAGE" IF THIS EMAIL IS CLIPPED)

Please note: 1) If full-text links from publishers' sites lead to an immediate download instead of opening a new window, our Free Full Text links will take you to the publisher's page leading to the PDF. We also do this in cases where the URL has a “watermark” or is ridiculously long. 2) We list correction citations if the error was substantial; otherwise, we simply update the WIKISTIM database.
